

About Minno Church At Home

Minno Church at Home was created in response to the significant impact that the COVID-19 pandemic has had on churches, families, and local communities. During times of uncertainty and volatility, we look to the support and encouragement that God provides through the body of Christ and specifically, our local church community. With social distancing and "Stay at Home" orders, it has been tough for parents or caregivers wanting to create an experience for their whole family to connect with God. With that in mind, the team at Minno developed a resource to help families have "Church at Home" each week since March 22.

Our desire when we launched Minno was to build a company that could help families abide and rest in Jesus Christ. The name Minno is based on the word "abide" from Jesus' words found in John 15:4 "abide in me, and I in you." We are parents, church volunteers, ministry leaders, developers, writers, and technology and entertainment executives with one mission: serving you, as Christian parents, in raising the next generation of believers.

Minno Church at Home has had over **250,000 users** from 190 different countries.

Our visitors have watched Minno Church at Home over 410,000 times.

"Thank you for making such a wonderful service available! What a blessing! My husband is an assisting Pastor & our in-person church services are canceled for the time being, so we're trying to provide families with a variety of encouraging options to stay in God's word during this time."

"I love this one" (My 6-year-old daughter) after watching it like 3 times.

"Minno Church at Home is excellent. We appreciate this resource so much. It's thoughtful, truth-focused, and smartly done for kids."
